

Commercial Control Dampers

# CD-45/46

## Airfoil Blade Control Damper

*Class 1 and 1A Leakage*

*1" Jackshaft Available*

*Optional 304 Stainless  
Steel Construction*

*AMCA Certified for  
Air Performance and Air Leakage*

Pottorff's **CD-45** (parallel blade) and **CD-46** (opposed blade) control dampers feature high-performing airfoil blades and a rugged hat channel frame to provide exceptional air control in medium to high pressure and velocity applications. They are a great solution for regulating airflow and reducing energy consumption for Data Centers, Warehouses and Distribution Centers.
