

Commercial Control Dampers

CD-47/48

NEW Insulated Airfoil Blade Control Damper

Class 1A Leakage

Blade Insulation with R Value of 4.3

Temperature - Up to 250° F

**Optional 304 Stainless
Steel Construction**

**AMCA Certified for Air Performance
and Air Leakage**

This model is IECC (International Energy Conservation Code) compliant.

Low Leakage Control Damper Features Steel Blades with Fiberglass Insulation.

Pottorff's **CD-47** (parallel blade) and **CD-48** (opposed blade) control dampers employ insulated airfoil blades and a rugged hat channel frame to provide exceptional air control in medium to high pressure and velocity applications.
