

# Commercial Control Dampers

# CD-57/58

**Industry Leading Pressure Drop**

**Class 1 and 1A Leakage**

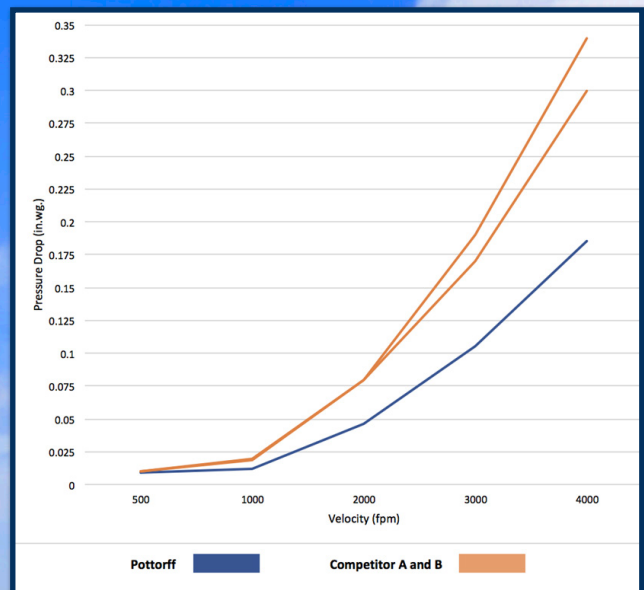

**Fully Symmetrical Aluminum Blades**

**No Blade Stops**

**Aluminum Frame**

**316 Stainless Steel Linkage Optional**

**AMCA Certified for Air Performance  
and Air Leakage**

**NEW Low Leakage Control Dampers Beat The Competition with Best-In-Class Air Performance**

# POTTORFF

Pottorff's **CD-57** (parallel blade action) and **CD-58** (opposed blade action) control dampers employ full symmetrical aluminum airfoil blades and a rugged aluminum hat channel to provide extremely low leakage and best-in-class air performance in medium to high pressure and velocity applications such as data centers, warehouses and distribution centers.
